Minnesota Chapter ASM begins its 2017-2018 season on Wednesday, September 20th, 2017 at 4:30 p.m. with a tour of Proto Labs in Plymouth, Minnesota.

About the Facility Proto Labs is the world's fastest digital manufacturing source for custom prototypes and low-volume production parts. The technology-enabled company uses advanced 3D printing, CNC machining and injection molding technologies to produce parts within days. The tour involves a look behind the scenes at one of nine manufacturing facilities that it has globally. The Plymouth facility holds over 300 CNC machines and 30 injection molding presses all within a 170,000 sq. ft. manufacturing facility.

There is no charge associated with the tour. Please note that Proto Labs reserves the right to refuse access to individuals whom it deems associated with its direct competitors.

After the Tour At 6:00 p.m., join other tour attendees for an informal gathering or dinner (on-your-own) at Jake's City Grille, 3005 Harbor Ln N, Plymouth, MN 55447.
